Experience

Oct 2022 - Ongoing

Amaris | Madrid

Front-End Developer

I started working in this company on a project for a client with colleagues from other countries. The project consisted of creating an eCommerce platform from scratch.

- Created mobile first components with Atomic structure for efficiency and reusability.
- Managed API calls between front-end side and server.
- Precise CSS design with Tailwind.
- Agile methodology with 2 week sprints, version control (GIT) and use of Redux.

Sep 2020 - Sep 2022

NTTData | Madrid

Front-End Developer

These years I was able to work in 3 different projects, involving complex forms, API server communication, eCommerce, banking and health insurance websites.

- Made high level contributions to a team leading site optimizations.
- Worked with teams to solve issues and find and implement efficiencies.
- Responsible for creating, improving and fixing web components with latest version of Angular, React.js, Bootstrap, Tailwind, Node.js, etc...
- Constant version control and deployment with GIT and Bitbucket.
- Code security and optimization with Kiwuan.

Oct 2019 - Sep 2020

Accenture | Madrid

Front-End Developer

In Accenture I started to have some responsibilities as well as learning from seniors in a very good team.

- High team communication for problem solving.
- Gave creative ideas for different approaches.
- Creation of web components with latest version of Angular and React.js.

Soft Skills

- Critical thinking
- Team-player
- Creative
- Growth mindset
- Flexibility
- Consistent and independent
