Experience

October 2022 - Present

Amaris I Madrid

Senior Front-End Developer

- Collaborating with an international team to develop an eCommerce platform from scratch using React and NextJS.
- Created efficient, reusable mobile-first components using Atomic structure.
- Managed API calls between the front-end and the server.
- Implemented precise CSS design using Tailwind and Bootstrap.
- Utilized Agile methodology, including 2-week sprints, version control with GIT, and Redux.

September 2020 - September 2022

NTTData I Madrid

Front-End Developer

- Worked on three diverse projects involving complex forms, API server communication, and web development for eCommerce, banking, and health insurance websites.
- Spearheaded the creation, improvement, and fixing of web components using the latest versions of Angular, React.js, Bootstrap, Tailwind, Node.js, etc.
- Practiced consistent version control and deployment with GIT and Bitbucket.
- Ensured code security and optimization with Kiwuan.
- Encouraged high team communication for effective problem-solving.

October 2019 - September 2020

Accenture I Madrid

Front-End Developer

- Created web components using the latest versions of Angular and React.js.
- Assumed increasing responsibilities and learned from senior team members in a highly collaborative environment.
- Provided creative ideas for different approaches to project challenges.
